EDUCATION

ABV-Indian Institute of Information Technology and Management (IIITM), Gwalior, MP 2022 – 2027
Integrated B.Tech in Information Technology + MBA (Business Analytics) CGPA: 7.14

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript, SQL, DAX

Data & Analytics: Power BI, Tableau, Pandas, NumPy, Scikit-learn, MS Excel (Power Query, Pivot Tables)

Databases: MySQL, BigQuery, MongoDB

Cloud, Tools & Methodologies: AWS, Docker, Git, GitHub, REST APIs, Linux, Agile Methodology

Course Work: Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Statistics, Applied Machine Learning, Big Data Analytics

EXPERIENCE

Ping Digital Broadcast Mar 2026 – Aug 2026
Data & Analytics Representative Intern Remote

- Constructed tracking spreadsheets and SQL databases to monitor daily registration trends across 1,200+ trial sign-ups.
- Cleaned and validated user activation logs, eliminating duplicate entries and ensuring 99.5% reporting data accuracy.
- Performed cohort analysis on trial usage patterns, identifying key adoption bottlenecks to inform weekly engagement strategy.

PROJECTS

Customized Recommendation System | *Python, K-Means, RFM Analysis, Scikit-learn*  [GitHub](#)

- Developed and implemented an RFM model to categorize high-value customers, facilitating personalized e-commerce marketing strategies and resulting in a 20% increase in engagement.
- Trained K-Means clustering algorithms to categorize target users, boosting personalized recommendation precision by 22%.

Restaurant Automation Platform | *JavaScript, HTML, CSS, Git*  [GitHub](#)

- Engineered a web application with an engaging user interface for automated digital ordering, simulating end-to-end e-commerce cart-to-checkout workflows.
- Streamlined workflow systems using automated event listeners and dynamic DOM manipulation, accelerating digital order processing capabilities.

Customer Behavior Analytics Dashboard | *Python, SQL, Power BI*  [GitHub](#)

- Developed a big-data analytics pipeline to process mock sales data and visualize purchasing trends, empowering business users to make data-driven supply chain decisions.
- Executed complex SQL queries and DAX functions to analyze high-volume transaction records, evaluating weekly revenue KPIs and regional growth drivers.

CERTIFICATIONS & ACCOLADES

- Secured **Global Rank 160 in LeetCode Biweekly Contest 184** by solving all 4 problems, achieving a 2014 contest rating.
- Selected as a **Google Gemini Ambassador**, representing and promoting Google Gemini's AI tools and initiatives within the student community.
- Earned the **SQL (Advanced)** certification, demonstrating proficiency in complex queries, joins, subqueries, and data analysis.
- Earned certification **Derive Insights from BigQuery Data** demonstrating skills in querying, analyzing, and deriving insights from data using **Google BigQuery**.

CODING PROFILES & ACTIVITY

- **Leetcode** (sushiiAkkii11) with Knight Level, **HackerRank** (sushantakki11) with Silver Level
- Solved **500+ DSA and SQL problems** across different coding platforms.

LEADERSHIP & CONTRIBUTIONS

- **Manchtantra – Theatre Club:** Represented IIIT Gwalior at Thomso'22, IIT Roorkee.
- **Uthaan – Recreational Club:** Led event reporting and content creation.
